- (B) 25 mm (0.98 in)
- (C) 229.5 mm (9.04 in)
- (D) 18°
- **(E)** 58°

Seats

B: SEAT HEATER

The electric seat heater consists of wire heating elements embedded in the seat cushion and backrest under the seat covering. Heating temperature can be selected between two settings: high-temperature setting for quick warming and low-temperature setting for continuous warming. Two thermostats are used to maintain a selected temperature and ensure safety.

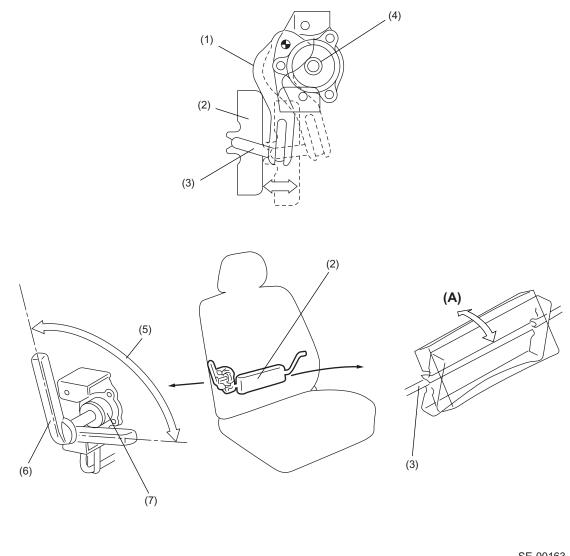

(1) Thermostat

C: LUMBAR SUPPORT

The position of the lumbar support plate in the backrest changes as the lumbar support adjustment lever is operated to adjust the force of support to the occupant's lower back.

The lumbar support mechanism has been modified to feature stepless adjustment. The material of the support plate is also changed to plastic for a better fit with the occupant's back.
